

# MICRONEEDLING AND DERMAL FILLERS TRAINING

Discover the most advanced techniques in microneedling and fillers with our course. Learn about Dermapen, Hyaluron Pen, and Ozone Plasma, among others. Supervised practice and group discussions ensure comprehensive learning. Obtain certification and skills for safe and personalized treatments.

## METHODOLOGY:

- Theoretical-practical approach supported by updated audiovisual materials.
- Practice on real models under supervision.
- Group discussions and case analysis.
- Continuous access to advice and learning resources.

## WHAT WILL YOU LEARN?

- Precise and safe techniques for using microneedles and filler systems.
- Proper skin assessment and treatment selection.
- Training to incorporate new technologies and treatments into your professional practice

## COURSE CONTENT:

It focuses on equipping professionals with practical and theoretical knowledge of the latest innovations in aesthetics, preparing them to provide advanced and customized treatments that meet safety standards and customer satisfaction.

### 1 FUNDAMENTALS OF MICRONEEDLING AND DERMAL FILLERS

- Introduction to microneedling and filler therapy.
- Anatomy and physiology of the skin applied to these treatments.
- Types of needles and fillers available on the market.

### 2 ADVANCED MICRONEEDLING TECHNIQUES

- Use of Dermapen: benefits, technique, and protocols.
- Hydrapen: integration of serums and active ingredients.
- Applied nanotechnology: Nano Soft and Nano Age and their applications.

### 3 USE AND MANAGEMENT OF THE HYALURON PEN

- Principles of the Hyaluron Pen for needle-free fillers.
- Application techniques and volumization with the Hyaluron Pen.
- Safety protocols and side effects.

## 4 OZONE PLASMA THERAPY

- Benefits and mechanism of action of ozone plasma.
- Application protocols in facial and body treatments.
- Integration of ozone therapy into aesthetic practice.

## 5 ICE PEN: CRYOTHERAPY AND REJUVENATION TREATMENTS

- Fundamentals of cryotherapy applied to aesthetics.
- Use of the ICE Pen in anti-inflammatory and anti-aging treatments.
- Combining the ICE Pen with other aesthetic treatments.

## 6 CLINICAL PRACTICE WITH MICRONEEDLING AND FILLERS

- Practical demonstrations and supervised practice.
- Evaluation of techniques and management of adverse reactions.
- Documentation and follow-up of treated cases.

## 7 FREE BONUS: TRAINING IN JET AGE®

- Principles and applications of the Jet Age® treatment.
- Application techniques and combinations with other treatments.
- Benefits and differentiation of Jet Age® technology.

## 8 INTEGRATION OF TREATMENTS AND CUSTOMIZED PROTOCOLS

- Design of combined treatments to address multiple skin concerns.
- Case studies and development of individualized protocols.
- Management of client expectations and effective communication.

## 9 LEGAL AND ETHICAL ASPECTS IN THE USE OF MICRONEEDLES AND FILLERS

- Regulations and applicable legislation.
- Informed consents and patient records.
- Risk management and emergency protocols.

## 10 FINAL EVALUATION AND CERTIFICATION

- Theoretical and practical evaluations to validate acquired competencies.
- Presentations of practical cases and discussion of results.
- Certificate distribution and course conclusion.

## WHY CHOOSE US?

### YOU WILL RECEIVE:

- Professional starter kit,
- Official certification,
- Post-training support and advice,
- Marketing materials,
- Protocols,
- Technical data sheets,
- Consent forms,
- Special discounts on products and much more.
