

JET AGE TRAINING

The Master course in Jet Age Technology in Korean Mesotherapy for Estheticians is a unique experience that will lead you to master the latest innovations in beauty treatments. Imagine feeling like a modern alchemist, able to create and teach personalized Korean mesotherapy formulas.

WHY CHOOSE IT?

In this revolutionary program, you will immerse yourself in the world of Korean mesotherapy and become a true Official JeuDerm Master. JeuDerm is an original Korean brand with its own laboratory and an impressive set of 22 global patents. This is your opportunity to learn from industry leaders and gain first-hand knowledge of the most advanced techniques in mesotherapy.

WHAT WILL YOU LEARN?

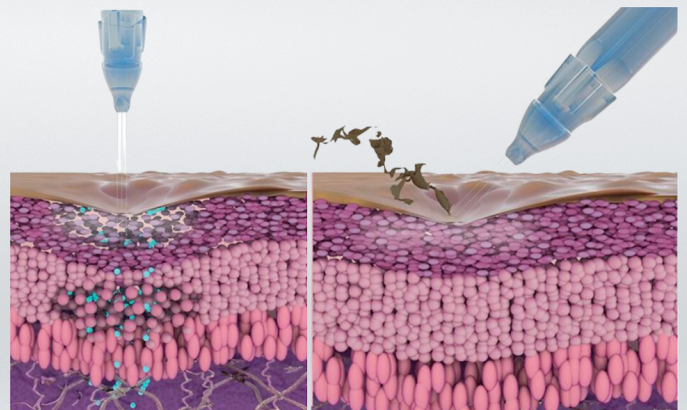

- Mesotherapy Fundamentals: You will begin with a solid foundation in the principles of mesotherapy and its application in beauty treatments.
- Jet Age Technology: Immerse yourself in the most advanced treatment delivery technology, including needle-free injection systems, and discover how to revolutionize your services.
- Custom Formulation: Learn how to create your own mesotherapy formulas tailored to your clients' individual needs, providing truly personalized results.

JET AGE: ADVANCED TREATMENTS, UNMATCHED RESULTS

INTRODUCTION TO JET AGE

- JET AGE® stands out as the only device capable of achieving deep penetration of active ingredients into the skin, all without using needles, without coming into direct contact with the skin and without causing discomfort.
- This advanced Oxygen system uses jet technology to provide a deep cleansing experience and infuse boosters and oxygen into the skin. Imagine an essential ally in your aesthetic consultation: our device acts as a gentle and effective 'Jeet pressure' for the skin. Gently removes the top layers of dead and dry cells, clears pores and provides hydration and oxygenation simultaneously.
- An essential tool to provide your clients with a series of treatments with a single device.

WHY CHOOSE US?

YOU WILL RECEIVE:

- 1 professional starter kit,
- Official Certification,
- Post Training Support and Advice,
- Marketing Material,
- protocols,
- Technical Sheets,
- consents,
